WORK EXPERIENCE:

UPS **07/2022 to Present**

Intermediate Applications Developer

- Led training sessions and created training documentation covering development topics like vulnerability remediation and Angular development basics
- Onboarded and mentored 2 interns
- Became an unofficial leader and critical resource for the team on various topics including Angular, API Authentication, and Nuget/NPM Vulnerability Remediation
- Implemented, tested, and deployed frontend and backend features for user stories across 60 sprints

UPS **11/2021 to 07/2022**

Applications Developer

- Utilized test-driven development to build a scalable, responsive web application deployed and used in operations at over 400 sites around the world
- Worked extensively with Angular 12, C# .NET 6, Couchbase, HTML5, SCSS/CSS, and TypeScript/JavaScript
- Remediated vulnerabilities and implemented multi-policy authentication across our APIs, agents, and client application to boost security

UPS **10/2020 to 11/2021**

Applications Developer Co-Op / Business Analyst Co-Op

- Utilized database querying and C# .NET programming knowledge to gather data on issues and vulnerabilities and reported all findings, including improvement recommendations
- Planned, facilitated, and lead meetings with the development team and stakeholders
- Interpreted business requirements into technical terms and user stories

UPS **09/2017 to 10/2020**
